### Summary

Leader Essentials Group is an executive consulting firm specializing in collaborating, developing, and executing strategic initiatives and professional development strategies with its clients.

What happens after your executive team or board approves your strategic plan? Life happens, the world changes, you have to adapt, and you lose sight of executing your strategy.

Sixty-seven percent of well-formulated strategies fail due to poor execution. Our niche is executing strategies with our clients and helping them succeed in implementing their strategic initiatives.

### Services

- **Strategy Execution:** Collaborate with C-suite and senior leadership teams to define the requirements for the organization to reach its goals by providing a step-by-step framework for successful strategy execution.
- **Leadership Development:** Assist leaders in improving their capabilities, inspiring their teams, and achieving outstanding business results. Our comprehensive leadership development training examines the neuroscience of leadership, conflict management, and implicit bias in the employment selection process.
- **Organizational Change Management:** Partner with organizations in leveraging change to bring about successful results. We utilize three fundamental aspects: Preparation, Implementation, and Execution. Our framework helps employees comprehend and commit to implementing change within an organization.
- **Operations Management:** Collaborate with the C-suite and senior leadership team to analyze existing operational practices and propose enhancements to create the highest efficiency possible.

Do you want to skyrocket your professional capabilities and the growth of your organization? Send us an email at [info@leaderessentials.com](mailto:info@leaderessentials.com) to schedule a 15-minute telephone consultation to learn more!
